(587) 778-1290 | oguntade.site | linkedin.com/in/aj-oguntade | Edmonton, AB

EDUCATION

University of Calgary

Bachelor of Science in Computer Science, Minor in Philosophy

Calgary, AB

Expected Spring 2029

PERSONAL PROJECTS

Custom Minecraft Server | *Server Configuration, Networking*

2024

- Built and configured a cross-platform Minecraft server allowing players on different devices (like PC and tablets) to play together seamlessly.
- Managed backend settings to ensure a smooth, lag-free experience for players.

Iconic Mobile App | *React Native, TypeScript, Supabase*

2024 – Present

- Developing a mobile app that helps users connect and discover local events hosted by friends.
- Set up the main database and built features like secure user profiles and search tools.

Code Color-Coding Tool | *Lua, Open Source*

2025

- Created and shared a free tool for a popular coding program that color-codes different programming languages at the same time.
- Designed the tool to be highly customizable so other programmers can easily read and organize their work.

Offline Trip Planner | *Mobile App Development*

2024

- Built an app that helps users plan travel routes and view maps even when they don't have internet access.
- Programmed the backend system to process travel data quickly so the app runs smoothly without long loading times.

EXPERIENCE

Graphic Design Intern

Canadian Imperial Advantage

July 2023 – August 2023

Edmonton, AB

- Designed fun and engaging posters and social media posts to grab people's attention.
- Worked on multiple creative projects at the same time, making sure everything was finished on schedule.
- Collaborated with a team to brainstorm new ideas for campaigns and learning materials.

School Library Assistant

Harry Ainlay High School

September 2022 – January 2023

Edmonton, AB

- Helped students and teachers troubleshoot computer issues and learn how to use new digital tools.
- Ran the library help desk, patiently answering questions and explaining how to find information.
- Organized educational resources and books so students could easily find what they needed for their projects.
